Product Name: Automatic Film Sealer

Part Number : FS-A20

Product Description: The machine is easy for operation, flexible to set software parameters and rolling value. Rolling frequency can be moderated according to the requirement of the experiment so that an assortment of brands of pressure-sensitive films and reaction plates can be well applicable.

Product Specification

Mode;	FS-A20
Dimension (L*W*H)	43*24*37cm
PCR reaction plate	PCR reaction plate without skirt, half skirt, full skirt, Elisa plate
Sealer film	PCR sealer film (pressure-sensitive type)
Running times	1-9999
Rolling position	1-3
Weight	9.8kg

Product Features

- 1.Touch screen display, convenient and intuitive operation
- 2.Excellence Sealing, no evaporation, good consistency
- 3.Fast and efficient, 20 seconds to complete filming
4. Flexible and adjustable parameters with the rolling frequency (1-9999) and rolling values (1-3)
5. Quiet for comfortable working environment.
6. Adapters are easy to replace and can be customized according to experimental requirements
