

PXNC-I03C

For automatic assembly and High frequency welding of Hemodialysis funnel、Infusion funnel
 PROCESS: material loading-automatic intubation- inspection and NG removal- welding-Piece unloading

Control Mode	PLC,PC
Power	10KW
Voltage	380V
Pressure Mode	Pneumatic < 0.6MPa
Tooling	Up 4
Net weight	800Kg
Output	4cycle/min, depending on material
Machine dimension	2230*1400*1500mm
Remark	Customizable

PXNC-I03P

For automatic welding of blood bag, drainage bag and urine bag
 PROCESS: material loading-welding-tube withdrawal-Piece unloading

Control Mode	PLC,PC
Power	10KW
Voltage	380V
Pressure Mode	Pneumatic < 0.6MPa
Heating sealing	400mm L *300mm W
Net weight	850Kg
Output	6cycle/min, depending on material
Machine dimension	2680*1350*1880mm
Remark	Customizable
