Product Name: Best Heat Shrink Packaging Machine

Product Description:

Shrink packaging machine is the latest automatic continuous shrink packaging equipment, using stainless heating tube heating, power saving and efficient (power saving of more than 15%) , shrink temperature and motor drive speed stable and adjustable, and wide adjustment range; The original roller rotation device can work continuously. Therefore, this product has advanced design, stable and reliable performance, energy-saving and efficient, shrinkage effect, novel and beautiful structure, easy operation and maintenance features, can be applied to any shrink film shrink packaging.

Feature:

- 1.After the battery pack sets the PVC heat shrinking machine, enter the machine to automatically shrink at a constant temperature.
- 2.Automatic shrinkage, good consistency and high efficiency.

Product Specification:

Supply Voltage	380V/50HZ
Heating Tube Power	10KW
Conveying speed	0-4m/min
Temperature chamber size	L1200×W300×H120mm
Product size	< W300×H120mm
Shrinkage furnace temperature	<200°C
Machine size	L1900×W620×1350mm
Equipment weight	200KG
