Product Name: **E83 Shielding Box**

Part Number: E83-A

Product Description:

It provides a test environment with good electromagnetic shielding performance, providing a non-interfering electromagnetic environment for product RF performance testing.

Product Specification:

Shielding Effectiveness(dB)	0.7 GHz to 40 GHz >60 dB
Dimension	Outside: 970(L)X890(W)X1035(H) mm Inside: 500(L)X500(W)X676(H) mm
Voltage	AC100-220V
Operation	Manual operation

Product Feature:

- It is suitable for conduction test environment with frequency between 0.7 GHz and 40.0GHz.
- Test antenna 360° polarization adjustment, HOLDER can rotate 360° horizontally to locate the maximum radiation direction
- The shielding box designed are with good mechanical stability, splendid shielding effectiveness, and smart protection induction, also easy to be operated, which can be applied to wireless communication technologies such as 5G (Sub-6GHz), LTE, Wi-Fi, Bluetooth, WCDMA, GNSS, GSM, etc.
