Desktop Dispensing Machine-TS-HV Series

The desktop visual dispensing machine features high motion speed, high precision, and small footprint, making it suitable for a variety of dispensing applications.

Applications:

▪ LENS, VCM, CCM dispensing process.

▪ Fingerprint identification module dispensing process

LENS **CCM**

VCM

Model	TS-300HV	TS-400HV
(W×D×H) Overall dimensions	760×665×659mm	860×761×659mm
Axes	3/4	
Axis repeatability	±0.01mm	
Max. speed	X/Y:1000mm/s, Z:500mm/s	
Dispensing range	300/300/100mm	400/400/100mm
Dispensing control system	Pneumatic dispensing controller/piezoelectric jet valve	

Desktop Dispensing Machine-TS-BN Series

Desktop BN series dispensing machine features easy installation, simple operation, high-speed and accurate. It provides optional Chinese/English interface. The machine equips with the needle alignment control button and is no need for external teaching pendant, which is more convenient than similar products debugging

Applications:

It can widely apply to mobile phones, electronic parts, optical components, automotive parts, medical equipment, decorations and other precision dispensing areas.

Model	TS-200BN	TS-300BN	TS-400BN
(W×D×H) Overall dimensions	413×444×499mm	513×539×574mm	613×639×574mm
Axes	3/4		
Axis repeatability	±0.02mm		
Max. speed	X/Y:600mm/s, Z:300mm/s		
Driving system	Step motor + synchronous belt		
Worktable's load	8kg		
Dispensing range	200/200/50mm	300/300/100mm	400/400/100mm
